To whom it may concern:

It is amazing to me that this challenge from the NAB is still considered, by many, viable. To improve services to consumers, provide the best content available, and entertain consumers is the goal of all broadcasting. This is the service XM Radio provides, without the annoying, endless, and mundane advertising, anecdotes, and childish behavior found on so many FM stations. Do not allow the poor services provided by local commercial stations to end the great service of XM Radio.
